

Let me help you

As Director and a Registered Nurse, I am able to undertake Registered Nursing duties and also fill vacant Registered Nurse shifts in health departments (hospitals, and residential care homes etc.)

I employ both Enrolled and Registered Nurses who can assist with filling vacant shifts.

These are just a few examples of services we can provide, however we are happy to tailor to your specific requirements.

Sylvia Treacy

Registered Nurse | Director

How
Can We
Help?

Nursing, Aged and Disability Support Services

Who are we?

We are a nursing and care agency providing experienced professional care for older people. We offer support for our patients/clients and also complement their existing care arrangements. We work closely with your home care provider, your doctor and/or your specialist.

What do we do?

FOR CONSUMERS, IN THEIR HOMES:

- We support the consumer with nursing services such as insulin administration, blood glucose monitoring, administering injections or medications that you are not able to manage yourself.
- We manage all wounds, new (acute) or long-term (chronic) wounds.

FOR PROVIDERS AND HEALTH ORGANISATIONS:

- We undertake comprehensive health assessments, send referrals and make recommendations to support consumers to live safely in their homes.
- We assist providers in keeping their care support workers up to date and manage competency based learning and assessment. (Infection control, hand hygiene, medication management, etc.)

How much will it cost me?

Our standard fees are calculated only for our travel and the exact time spent with the patient/client or the hours worked.

WE DO NOT CHARGE a minimum hourly rate.

Registered Nurse or In-home Nurse services \$80-\$100 per hour.

Enrolled Nurse \$60-\$80 per hour.

Personal Support Workers \$50 per hour.
plus the cost of transport (mileage) to and from clients homes of **\$1.20 per kilometre.**

Please call or email us for a quote.
